- Health and Humanitarian Supply Chain Management (HHSCM) Certificate
- Logistics Fundamentals Certificate
- Supply Chain Fundamentals Certificate

SUPPLY CHAIN DAY CAREER FAIR

Our premier recruiting event is an exceptional opportunity to connect with talented Georgia Tech students who are eager to explore and advance their careers in the supply chain and logistics industry. Many students ultimately choose to work for companies where they interned or co-oped after their first or second year. This event is critical for those looking to secure the best early talent.

When: Twice annually (Jan/Feb & Sept).

SCL RESEARCH

Aligned with the Institute's educational mission, our research integrates a strong academic foundation that enriches graduate education while offering practical, hands-on experience for future career success. Our research collaborations target real-world challenges, delivering solutions that make a direct impact on business and industry.

Our Core Research Threads:

- Distribution and Transportation Logistics
- Methodologies in Supply Chain and Logistics
- Pricing, Revenue and Inventory
- Production and Facility Logistics
- Supply Chain Policy and Infrastructure
- Supply Chain Strategy, Design and Planning

We invite industry partners to engage as pilot clients, helping validate solutions, share insights, and build stronger collaboration between academia and the marketplace.
