Enroll in a Georgia Tech SCL Certificate Program Today!

Supply Chain Management (SCM) Certificate

Developed to provide participants with both a solid cross-domain understanding of supply chain, as well as an opportunity to expand knowledge in specific domains or techniques of interest. Gain essential industry skills to advance your career and start applying practical knowledge, tools, and techniques immediately at your organization. *Must take a minimum of 4 courses **and** a minimum of 5.2 CEUS to earn the SCM Certificate. Participants may take all 4 courses from SCM, OR choose at least 2 from SCM, plus any 2 remaining courses from the DOAD, SDP, PSM, LSCP, SCPM or SCF certificate series.*

Distribution Operations Analysis and Design (DOAD) Certificate

Formulated to arm distribution operations professionals to stand out in their careers as experts in facility operations improvement. Emphasis is placed on topics such as: Systematic Methodologies to Facility Layout; Quantitative Analysis of Needed Facility Capabilities; Lean Warehousing Concepts; and Rigorous Tradeoff Analysis of Labor, Equipment, and Facility Alternatives. Develop critical skills needed in both designing new facilities and reengineering a wide variety of existing distribution facility types. *Must take a minimum of 4 courses **and** a minimum of 5.2 CEUS to earn the DOAD Certificate. Required DOAD courses include: Engineering the Warehouse; Lean Warehousing; & Warehousing/Distribution Center Layout. Participants may choose Material Handling 101, PFEP & Total Cost Mgt or one course in the SCM, SDP, LSCP, PSM, SCPM, or SCF series for their elective.*

Supply and Demand Planning (SDP) Certificate

The program is designed for professionals with broad planning responsibilities, as well as professionals with more focused areas of concern who want to gain a solid understanding of the important techniques, tools, and components associated with integrated supply chain planning. *Must take a minimum of 4 courses **and** a minimum of 5.2 CEUS to earn the SDP Certificate. Required SDP courses include: World Class Sales and Operations Planning, Integrated Business Planning, and Supply Chain Risk Management. Participants may choose 1 of the following as their elective: Inventory Planning & Management; Tactical Decision Making in Inventory and Supply Chain Mgt; Demand-Driven Supply Chain Strategy; Defining and Implementing Effective Sourcing Strategies; Measuring and Managing Performance in Supply Chain and Logistics Operations; any SCF course; or any LSCP course.*

Supply Chain Project Management (SCPM) Certificate

Individuals who can manage complex supply chain projects & programs are in high demand. These courses help prepare students for project management certification while going beyond that – in preparing students for the complexities of managing projects in the multi-functional supply chain environment. Participants learn techniques to be successful in key areas such as: vendor selection and management, change management concepts, and cross-organization collaboration. *Must take a minimum of 4 courses **and** a minimum of 5.2 CEUS to earn the SCPM Certificate. Required courses are SCPM Fundamentals, SCPM: Vendor Selection & Mgt, and SCPM: Effectively Managing Transformation Projects. Participants may choose any 1 course in the SCM, DOAD, PSM, LSCP, SCF or SDP series for their elective.*

Procurement and Supply Management (PSM) Certificate

Designed to prepare sourcing, planning, and procurement professionals to lead their companies in successfully navigating the complexities, risks and rewards of the modern global sourcing environment. *Must take a minimum of 4 courses **and** a minimum of 5.2 CEUS to earn the PSM Certificate. Participants must take Bid Package Development, Contracting Excellence and Essential Principles of Negotiation. Participants may choose 1 remaining course from SCF or SCPM series or Demand Driven SC Strategy, Measuring & Managing Performance, Lean Leadership Online, Lean Warehousing, Warehouse/Distribution Center Layout, Engineering the Warehouse or Transportation & Distribution Planning.*

Supply Chain Fundamentals (SCF) Certificate (100% Online) Logistics Fundamentals (LF) Certificate (100% Online)

These certificates are designed for those who want a solid understanding of supply chain fundamentals and logistics fundamentals who may be new to certain supply chain domains. www.scl.gatech.edu/fundamentals

Logistics Fundamentals Certificate: *Must take the following 4 SCF online courses: Supply Chain Management Principles (5.2 CEUs), Warehousing Ops (4 CEUs), Inventory Planning (4.3 CEUs) and Transportation Ops (4 CEUs)*
