Since Atlanta’s beginning as “Terminus,” it has served as a center of transportation and logistics. Today, Atlanta is the home to many logistics-intensive companies like Wal-Mart, Delta, The Home Depot, UPS, Coca-Cola, CSX, Porsche, Target and more. Designed for 16-24 year-olds in Metro-Atlanta, this program will give you the knowledge needed to begin your career in many roles in logistics! Made possible by a generous grant from JPMorgan Chase & Co., tuition is free for those who qualify!

WHY TAKE THE NEW LEAP COURSES?
» Learn at your own pace with our convenient online format and earn a certificate from Georgia Tech which is listed on your official Georgia Tech transcript
» Receive career coaching and resume advice
» Become more marketable to employers like Wal-Mart, Delta, The Home Depot, UPS, Coca-Cola, CSX, Georgia Pacific, Target, Amazon and more!
» Prepare to take the national certification exam offered by CSCMP

WHO SHOULD SIGN UP?
» High school students interested in learning more about logistics while gaining exposure to the college environment through interaction with GT Faculty
» Individuals looking to increase their knowledge in logistics for personal growth or to get a job in logistics
» Returning veterans* seeking to commercialize their skills

As an Equal Education Opportunity Institution, applications from veterans, underrepresented minorities and women are strongly encouraged. This program is currently tuition-free for 16-24 year-olds who are residents of Fulton, DeKalb, Clayton, Cobb and Gwinnett counties or active duty military members who will be moving to one of these counties. 16-24 year-old residents of other metro-Atlanta counties may apply and be charged $100 per course.

*Active duty service members interested in participating in the LEAP courses as part of the VET2 program should contact James.Wilburn@pe.gatech.edu.

This course incorporates and builds upon materials that were funded by a $24,5M TAACCCT grant awarded by the U.S Department of Labor’s Employment and Training Administration to the LINCS in Supply Chain Management Consortium.

A new fast-track certification program to prepare Atlanta’s entry-level workforce for high-growth careers within logistics: Moving the right product, to the right place, at the right price, at the right time while providing exceptional customer service! Each course is approximately 40 hours of online instruction. **APPLY NOW!**

**LEAP COURSES**

**LEAP: Supply Chain Management Principles**
Prepares students in the basics of supply chain and supply chain’s roles within organizations. The course includes defining supply chain management and the various domains within supply chain (e.g., customer service, manufacturing and service operations, order management, procurement and supply management, demand planning, inventory management, warehousing operations, and transportation operations). It includes an explanation of how the supply chain supports organizations’ strategic and financial goals. **Possible positions include:** Purchasing clerk, material handler, logistics coordinator, merchandise buyer assistant, and supply coordinator.

**LEAP: Warehousing Operations**
Structured to prepare students in warehouse operations with a fundamental understanding of the physical, technological, process, and safety considerations of warehouse/distribution operations. Additional topics include: facility configuration, storage and handling techniques, metrics, customer service considerations, and the role of distribution operations in different industries. Includes exposure to bar-coding, picking and shipping processes, and storage and sorting systems. **Possible positions include:** Warehouse supervisor, receiving clerk, forklift operator, pickers, packers, shippers, and receivers.

**LEAP: Transportations Operations**
Prepares students in the basics of transportation operations and the role of transportation within an organization’s overall supply chain. The course includes review of the key elements of transportation such as: modes of transportation, transportation technology, company roles and operations within the transportation field, the impact of transportation on the overall economy, sustainability in transportation, and how the field is evolving to meet future needs. **Possible positions include:** Dispatcher, transportation clerk, route driver, package deliverer, scheduler, and traffic clerk.

**LEAP: Customer Service Operations**
This course prepares students in the basics of customer service operations and the role of customer service within an organization’s overall supply chain. The course includes presentations of the key elements of customer service including: the order management process, customer relationship management, management of challenging customers, effective customer communications, returns and reverse logistics, and performance metrics. **Possible positions include:** Customer service agent, order management supervisor, and order entry clerk.
