Supply & Demand Planning Certificate

Learn to apply the latest planning techniques to align your business and mitigate risk.

World Class Sales and Operations Planning

COURSE DATE: TBD

COURSE DESCRIPTION

This course focuses on defining, executing, and improving the sales and operations planning (S&OP) process. Participants will be introduced to the appropriate stakeholders of S&OP, the importance of S&OP to corporate performance, S&OP cadence, and the use of visionary technology to bring S&OP to the next level. Business cases will be used to show concrete examples of companies where S&OP is effectively applied.

THIS COURSE WILL ENABLE YOU TO

- Understand the need for an S&OP cycle in a company
- Apply principles that are instrumental to the success of an S&OP process
- Experience true market examples relevant to your businesses

World-Class Integrated Business Planning

COURSE DATE: TBD

COURSE DESCRIPTION

This course provides a holistic view toward supply chain performance and supports effective supply chain management. You'll learn how to handle the challenges of today's operating environment with "Big Data," best practices in building a cost-to-serve solutions, and analytics that create actionable insights for developing smart strategies for financial improvements. Best practices will be applied in an interactive exercise using the results from the latest innovative software.

Supply Chain and
Logistics Institute

Supply Chain Risk Management

COURSE DATE: April 11-12, 2024

COURSE DESCRIPTION

In today's global economy, operating risks are increasingly on the minds of executives. The specific context of operating risk can range from general areas of business continuity to the effects of natural disasters. In this course, participants will gain a solid understanding of Supply Chain Risk Management principals including effective ways to identify, mitigate, and measure the impact of potential supply chain disruptions.

THIS COURSE WILL ENABLE YOU TO

- Develop a broader and more comprehensive understanding of how your company's supply chain may be at risk
- More effectively communicate to your company's stakeholders the realities of supply chain risks
- Develop a cross-functional understanding of the building blocks for effective Supply Chain Risk Management to be used in your particular business
- Improve your company's Supply Chain Risk Mitigation program
